PRICING MODEL

At Four Chambers Recruitment, our pricing model is designed to be flexible and tailored to meet the unique needs of our clients. We understand that every candidate and contract is different, and we take various factors into account when determining our pricing.

We base our pricing on the type of contract the candidate is on, whether it's a temporary, part-time, or full-time arrangement. Additionally, the length of the candidate's work period is considered, as longer-term contracts may require different pricing structures than shorter-term assignments.

Other factors we take into consideration include the specific skills and qualifications required for the role, the level of expertise needed, and the complexity of the recruitment process.

By taking a comprehensive approach to pricing, we ensure that our clients receive a fair and competitive rate that aligns with their specific requirements. Our goal is to provide exceptional value and service while meeting the unique demands of each recruitment partnership.
